

8th Grade Science– Week (4-3-17)

TEACHER: JULIE M.
MUELLER

GRADE: 8

	Monday	Tuesday	Wednesday	Thursday	Friday
OBJECTIVE(S) (WHAT DO I WANT STUDENTS TO KNOW/)	Review of Earth Science Concepts – Day 3	6 th Grade Science Classes here	To learn to balance chemical equations.	6 th Grade Science Classes here	To learn to use molecular model kits.
INSTRUCTIONAL METHODS (HOW AM I GOING TO INSTRUCT/)	Students will be split into teams and we will review materials we have studied that may be a part of the spring testing.		Students will work through worksheets on balancing chemical equations.		Students will be given a list of formulas for compounds and molecules and will be asked to build them.
ASSESSMENT HOW WILL I ASSESS LEARNING	This is an informal assessment of where we are at.		Students will hand in equations for a grade.		Students will be graded on the drawings they submit of their models. Accuracy of elements used and proper use of symbols for single or double/triple bond of importance.

CLOSURE	We will work on balancing equations tomorrow.		We will work with molecular models next class.		We will continue with this on Monday.
